

Historic Building Restoration & Renovation Experience

We are very proud of our experience and ability to restore a historic building to its original grandeur. We appreciate historic architecture and strive to maintain the building's historic flair while dealing with real-time issues of an aging building. By carefully blending turn-of-the-century architecture and craftsmanship with today's technologies, we restore a building's historically significant elements while meeting the demands of the contemporary business environment.

Over the years, Kinco has successfully delivered many Historic Restoration & Renovation projects. We are proud to have been involved in the restoration of several of Arkansas' oldest and most well know structures, including 9 listed on the National Register of Historic Places. These structures include Old Main at Arkansas Baptist College - circa 1890, Trinity Episcopal Church - circa 1884, University of Arkansas – Little Rock Law School – circa 1882, and the most recognizable historic structure in the state, Old Main at the University of Arkansas – Fayetteville – circa 1875. Most recently, Kinco completed pre-construction services on the Historic Washington County Courthouse (circa 1905) located in downtown Fayetteville, Arkansas.

Each of these projects, ranging from small to large, receives the same detailed craftsmanship and thorough project management regardless of the size. Experience, attention to detail, total commitment to excellence, and superior customer service are just a few reasons to trust your historic renovation project to Kinco Constructors. We live in your community, work in your community, and have had a reputation for excellence in craftsmanship in this community for over 36 years.
